New Carlisle, Ohio

New Red Rhubarb

**New
Chipman's
All-Red
Rhubarb**

(Produces a large, vigorous stalk which holds its bright red color throughout the entire season.)

Chipman's Canadian Red

The new "All-Red" Rhubarb. Large stalk which is red all the way through. This is, by far, the SWEETEST and BEST of all the Red Rhubarbs. A very vigorous grower with stalks of high quality and rich flavor. An excellent variety for freezing or canning. Price, strong divisions, 65c each; 5 for \$3.00, postpaid.

MacDonald New very high quality, highly colored, attractive bright Red Rhubarb with large size stalk, very tender and succulent. Particularly valuable for pies and desserts. MacDonald requires less sugar for cooking than any of the old standard varieties. Price, strong divisions, 55c each; 5 for \$2.50, postpaid.

For Rhubarb Quantity Prices See Bottom of Page

Cultural Directions

Asparagus. Prepare ground by deep plowing or spading. Set plants 12 to 18 inches each way, 3 inches deep, with roots well spread out. Every fall mulch the bed with well-rotted manure, ashes and salt. During the growing season dust the foliage with a mixture of 85% Sulphur and 15% Arsenate of Lead.

Rhubarb. Prepare ground as for Asparagus. Set plants with crown or eye 2 inches under ground. Plant 2 to 3 feet apart each way. Mulch in winter. Give clean cultivation the same as for any other crop.

Horseradish. Thrives best in deep moist fertile soils. Set the roots 12 to 15 inches apart either horizontally or upright and in furrows 3 to 3½ feet apart. Clean cultivation and the roots are ready to dig in the fall.

Paradise Asparagus

Sensationally New. Early-Maturing Variety of Superior Quality. Produces normal crop ONE YEAR EARLIER than other varieties and produces heavier throughout its life. Large, crisp, tender stalks with exceptionally fine, mild flavor. Only 6 or 8 stalks required to the pound. Ideally suited for freezing, the superior taste being retained.

NEW "500" ASPARAGUS

New variety developed by the canners of the West Coast and found to be equally superior for home planting because of its high quality, large tender shoots. Offered this year for the first. Plant the NEW "500" Asparagus and have the best in your garden.

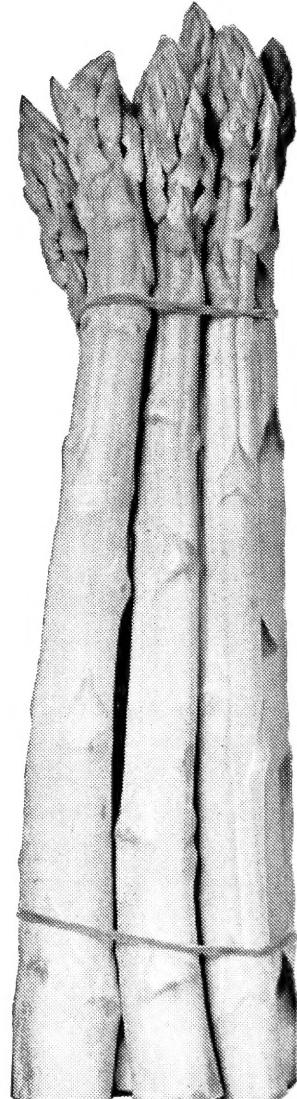

For Asparagus Prices See Bottom of Page

SARFF'S Maliner Kren Horseradish

America's Most Popular Relish—An Essential of Every Old-Fashioned Garden—A Commercial Moneymaker

MALINER KREN. This Bohemian variety makes an enormous yield and is so early that it can be marketed before the common kind is ready, besides, the roots are much larger and whiter. The roots sell readily on market, and yield as high as 4 to 6 tons per acre. It requires about 10,000 sets for an acre, and the crop is ready for the market the first year. It is easy to grow, every plant will live. Try at least 1,000 sets if you cannot plant an acre. It is ready sale in any of the large cities.

Red Rich

(Plant Patent No. 933)

Produces a Pint per Plant of Solid Red Berries the first season under proper growing conditions. You'll be delighted the second season with yields up to a quart per plant.

Red
Rich

New 20th Century

An outstanding everbearer, highly recommended by Experiment Stations all over the country. It is vigorous grower and exceptionally heavy producer of good sized bright red berries of fine texture and delightful taste. Bears fruit in 60 days.

HOW TO GROW EVERBEARING STRAWBERRIES

1. Set in rows or bed 15 inches apart. Rows 3½ ft. apart.
2. Hoe and cultivate for first three weeks, keeping all runners removed.
3. Then cover the entire area with a layer of sawdust mulch one and one half inches thick, applying some fertilizer high in Nitrogen on the sawdust around the plants.
4. Remove blossoms as they appear until mid July.
5. Apply a winter mulch of clean straw, the same as for other strawberries.

The Amazing New Everbearing Strawberry

Berries Are Big—
Solid Red to the Core and
My! How Sweet

Enjoy these Sugar Sweet,
Red Rich berries throughout the
late summer and fall season.

Freeze them whole—Little sugar is needed. Red Rich is unsurpassed for freezing. With the deep red color, natural sweetness, and firm flesh texture, it makes wonderful winter preserves.

Edge Your Garden or Flower Beds with Red Rich. Each plant is a bright bouquet of glossy green foliage, white blossoms, and sparkling red fruit.

Heavy yielding gives it a top rating with the growers.

Perfection (Everbearing) Proving to be about the heaviest yielding everbearing strawberry. Attractive, well-formed berries and of excellent quality. Enjoy these delicious fruits until the snow flies. Grow them in the home garden or commercially under the sawdust mulch system.

Plant A "PYRAMID" Garden

{ FOR LOTS OF BERRIES IN A LIMITED SPACE

In 1/3 the space of the conventional garden method you can enjoy an abundant full season growth of Red Rich everbearing strawberries with a Pyramid Garden. Easy to pick from, easy to care for. Complete description with each Pyramid Garden.

6-ft. Diameter, \$9.95 Postpaid.

Complete with 50 Red Rich Plants, \$18.45 Postpaid.
Sprinkler, complete with attachments. \$4.95 each,
Postpaid.

Strawberries

There's Always a Spot in Your Garden for Strawberries

Easiest to Grow of All Fruits — Quickest to Come into Bearing

How to Grow Strawberries

Soil: Any good fertile well-drained soil will grow Strawberries. Be sure it has been under cultivation one full year before planting strawberries to avoid injury from grubs.

Planting: Set the plants 18 inches apart in 3 foot rows. Water the plants when setting. Additional watering is desirable during extreme dry periods of the summer. Side dress the rows with a good Nitrogen fertilizer, or rich well decomposed manure. Keep the soil well hoed and cultivated the first summer. Spring bearing varieties may be grown under the sawdust mulch system the same as everbearing Strawberries. (See page 2.)

Mulching: When the ground freezes solid in the fall, apply a mulch of several inches of clean straw over top of the rows. Pull this mulch off the plants early in the spring before growth starts leaving it between the rows to keep the berries clean. Make another application of fertilizer at this time. Renew your strawberry bed after not more than two fruiting seasons.

Robinson

(Scarlet Beauty) Honey Sweet Flavor • Berries Large as Golf Balls •

The New Robinson Strawberry has given greater customer satisfaction than any other spring bearing variety we have ever offered. It rates "tops" because of its LARGE SIZE, PROLIFIC YIELDS, BRIGHT RED COLOR, AND TRUE STRAWBERRY FLAVOR—as fine a berry as you have ever tasted.

Dorsett Deep red color, midseason large size and long considered tops in quality.

Dunlap An old favorite still in demand for freezing, preserving and general home use. Early and deep red clear thru.

Premier This very popular early berry has stood the test of many years for both commercial and home plantings.

Fairpeake A leading late variety. A cross between Fairfax and Chesapeake with best characters of both—a sparkling, firm deep red berry, excellent for either home or commercial growing.

Catskill Large fruits, heavy yielding and a splendid all-around midseason variety.

Sparkle Solid dark red clear to the core. Here is the finest variety for freezing. Late midseason.

Red Crop (New Red Stele Resistant Variety) Medium Late. Fruit is very attractive, large, highest quality and red throughout. Very good for freezing.

• Black Raspberries •

—Excellent for Pies.
—Freeze or Can Them.

PLANT A ROW IN YOUR GARDEN
AND BE ASSURED OF PLENTY OF
LARGE, FULLY RIPENED BERRIES.

Bristol Highest Quality Widely Adapted

Best Variety for Home Planting
Thrifty in Growth — Very Productive

Bristol is probably the best midseason black raspberry. We place it at the top for both home and commercial planting. The canes are healthy, vigorous and produce heavy crops of large high quality berries. Bristol has already taken a high ranking place among the best of the Blackcap Raspberries for both home and commercial planting.

Logan (Early)

Most Dependable Early Black Raspberry

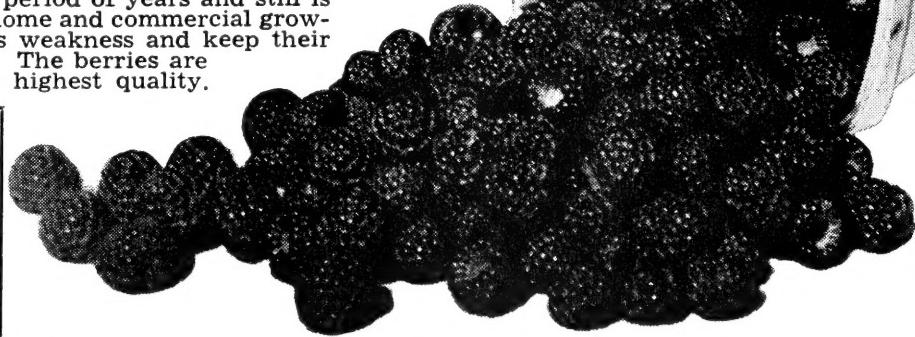

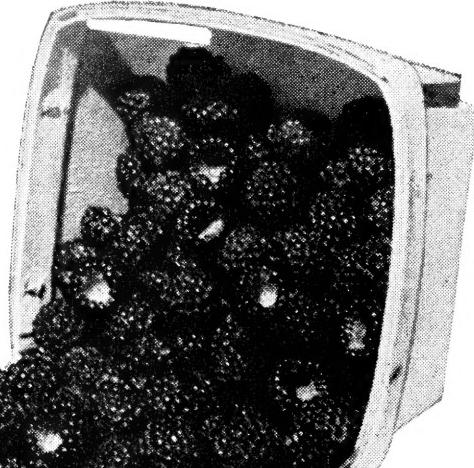

Yields are as heavy as midseason varieties. Withstands hot, dry weather better than other black caps. The berry ripens one week earlier than Cumberland; it is a heavy yielder and the glossy black berries are almost as large as Cumberland.

Morrison Largest Blackcap

Hold Their Size Until the Last of the Picking Season

Morrison excels as a berry for both home and commercial planting. The large, attractive berries meet all culinary requirements. They are high in quality, firm texture, juicy, not so seedy as other blackcaps. MORRISON berries hold up longer in grocery and market displays. Ripens after Bristol. We recommend Morrison and Bristol as the most satisfactory black raspberry varieties for general planting.

Cumberland This variety has been the standard of all Blackcap Raspberries for a long period of years and still is the choice of both the home and commercial growers who understand its weakness and keep their plantings in full vigor. The berries are large and of the very highest quality.

NOTICE
Important information for Ohio customers only: The Ohio Sales Tax applies only to Ornamental stock. No tax on Fruit trees, Grapes, Berry Plants, etc.

See page 5 for price schedule of Black Raspberries

— Raspberry Growing —

1. Plant early and set only dependable disease free stock and maintain proper isolation from other diseased or wild plants.
2. When setting out black raspberry tip plants always cut off the old stem (or "handle") as growth will come from the crown of the plant.
3. It is generally recommended that red and black Raspberries should not be grown within at least 20 rods of each other.
4. Any plant showing any symptoms of disease should be promptly removed and burned.
5. Mulch around the canes whenever possible and follow a system of clean cultivation or mulch throughout the growing season.
6. All Raspberry plants are benefited by liberal applications of manure, Sulphate of Ammonia or other Nitrogen fertilizer applied as a side dressing each spring throughout the life of the planting.
7. To control Anthracnose use Dry Lime Sulphur 12 pounds to 50 gallons water. Spray each spring while still dormant on buds just beginning to show green. This should be followed with Fermate, either liquid spray or dust, for several applications at two-week intervals.

• Red Raspberries •

Highly prized for their excellent dessert quality, to be eaten fresh with sugar and cream, for their sparkling red preserves, freezing, and many other culinary uses. Be sure to include some in your garden planting.

September (Everbearing) Red Raspberry

SEPTEMBER fully matures both crops, although not as sweet, the berries are firm and brighter red. Bids for first place as an extra early red raspberry variety.

Indian Summer Ever-bearing

INDIAN SUMMER is a larger berry, higher quality, but fruits are softer and many times the fall crop does not fully mature before fall freezes.

Latham Thrifty Grower Heavy Yielding

Large bright red berries ripening in midseason. We can recommend Latham as one of the best midseason varieties for every section of the U.S. and for either home or market planting and know that it will give complete satisfaction.

Willamette Best for Home Garden

Hardy, Vigorous, Disease-Resistant Canes. Fruits Very Large—Sugar Sweet—Best for Freezing.

• Purple • Raspberries

Sodus

Considered heaviest yielding of all Raspberries

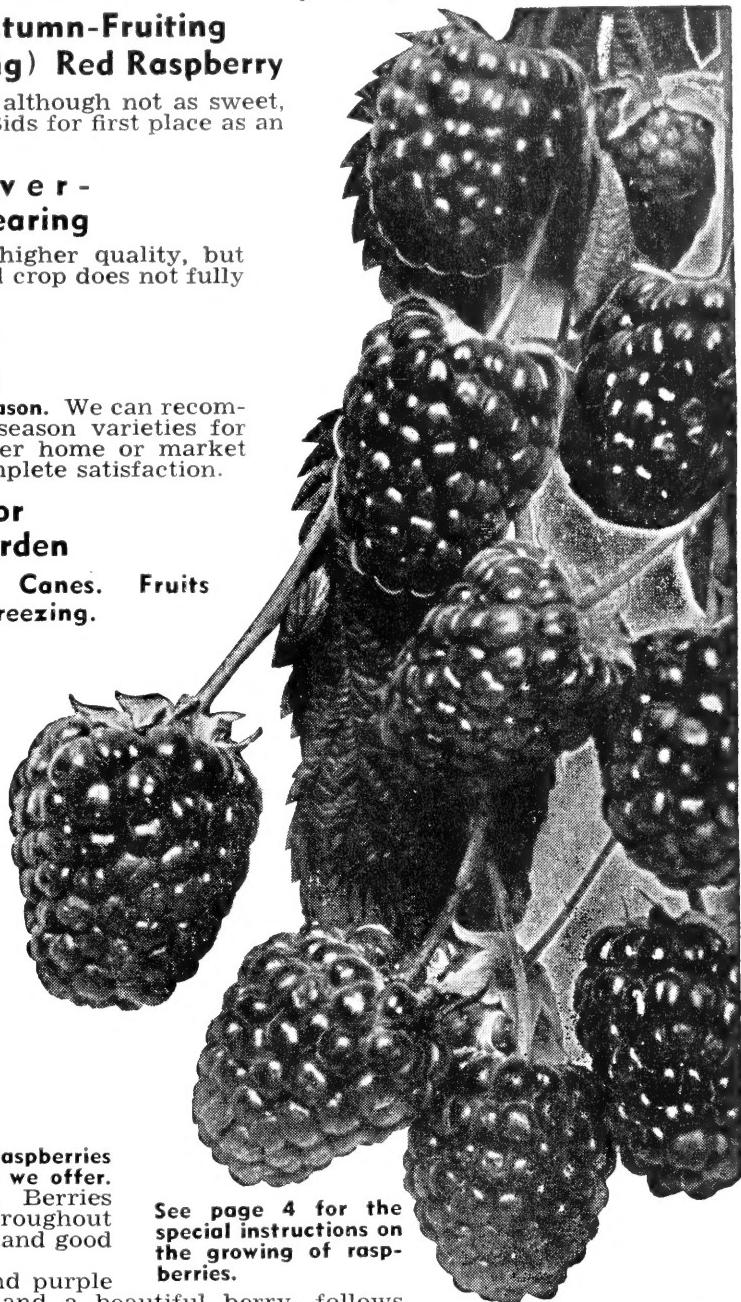

Attractive, firm, sprightly and good quality. Picks easily and does not crumble. Plants are hardy, vigorous. Sodus withstands drought, and comes through with a crop when most varieties of Raspberries fail.

Marion

Marion is the largest of all the purple Raspberries and possibly the largest of all raspberries we offer. Follows Sodus in season of ripening. Berries are **very large**, holding up well in size throughout the season. Moderately juicy, firm, tart and good in quality.

We consider **Sodus** the best all around purple Raspberry. **Marion** is larger in size and a beautiful berry—follows Sodus in season and is perhaps the **largest of all Raspberries**. **Marion Plants are available only in 2 yr. bearing age this year.**

See page 4 for the special instructions on the growing of raspberries.

Blueberries

Delicious Flavor—Profitable—Ornamental

- Sapphire Berries the Size of Grapes.
- Plump Tender and almost Seedless.
- Far Superior to the Wild Blueberries.

SCARFF'S Blueberries are the largest varieties. Give them an acid soil condition, good drainage and plenty of moisture. They will start to bear in one or two years. If your soil is not already acid, mix it with liberal amounts of acid Peat, rotted leaves, pine needles, old sawdust or chip dirt. Chemicals to insure soil acidity would include Flowers of Sulphur and also Aluminium Sulphate ($\frac{1}{4}$ to $\frac{1}{2}$ lb. per square yard.) See page 32.

Select Blueberry Varieties

We are featuring **DIXI** because of its large-sized fruit, fine blue color, firmness, productivity and good dessert quality.

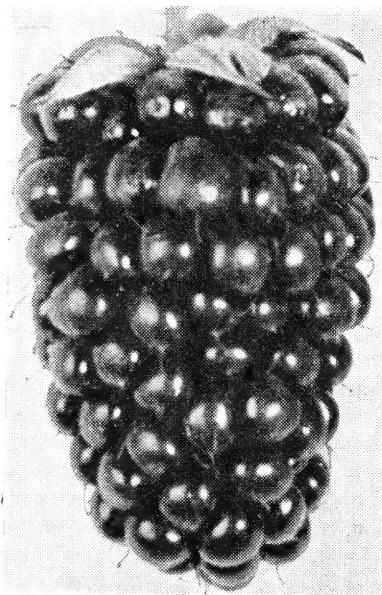

Another of the newer varieties, **PEMBERTON**, is very vigorous in growth and productiveness. The berries have a good flavor and are large and attractive.

JERSEY—One of the most dependable midseason varieties.

Boysenberry

Thornless Boysenberry

Best adapted for sections south of the Ohio River but may be grown on north into Michigan with proper winter protection. They are really the highest quality vine berries yet developed, having a very delectable flavor and a rich deep red juice surpassed by no other fruit, in our estimation. These **Thornless Boysenberries** have canes smooth as velvet.

Blackberries

Lowden—New Heavy Fruiting

Fine Large Glossy Berries so Highly Desired for Pies, Wines, Freezing and other Culinary Uses

Lowden—For Finer Blackberries

Description: The fruits are large, glossy black with no tendency to sun scald, firm, and of good quality, having a sweet, rich flavor and absence of hard core when fully ripe. The canes are hardy, upright, but not tall, and highly productive. Mr. Lowden claims that on one 2-year-old cane 1146 berries were counted.

New Red Lake Currant

**Finest of all Red Currants—Large Berries—
Excellent Quality—Long Well-Filled Clusters
of Cherry Red Fruits**

Makes Finest, Clear, Bright Red Jelly

Has this generation of housewives lost the art of making those sparkling bright Red Currant jellies and delicious Gooseberry pies such as our mothers used to do? They added variety and vitamins to the diet. Cut your food budget by planting a few bushes of each in your garden or along the fence.

Your favorite cook book will provide the recipes.

Price, Red Lake Currants heavy 2 yr. plants 75¢ each; 3 for \$1.95; 10 for \$5.00 Postpaid.

• PIXWELL GOOSEBERRY •

Most Vigorous grower—Almost thornless — Heavy yielder — Highest Quality Pink Berries.

A last we have a variety of gooseberries that is a rugged dependable grower and can be unhesitatingly recommended for both home and commercial planting. It is a fine thrifty growing shrub with slender almost thornless branches. Named "Pixwell" because the medium to large pinkish red berries hang on slender inch long stems.

Price, Pixwell Gooseberries, heavy 2 yr. plants; 85¢ each; 3 for \$2.25; 10 for \$6.00.

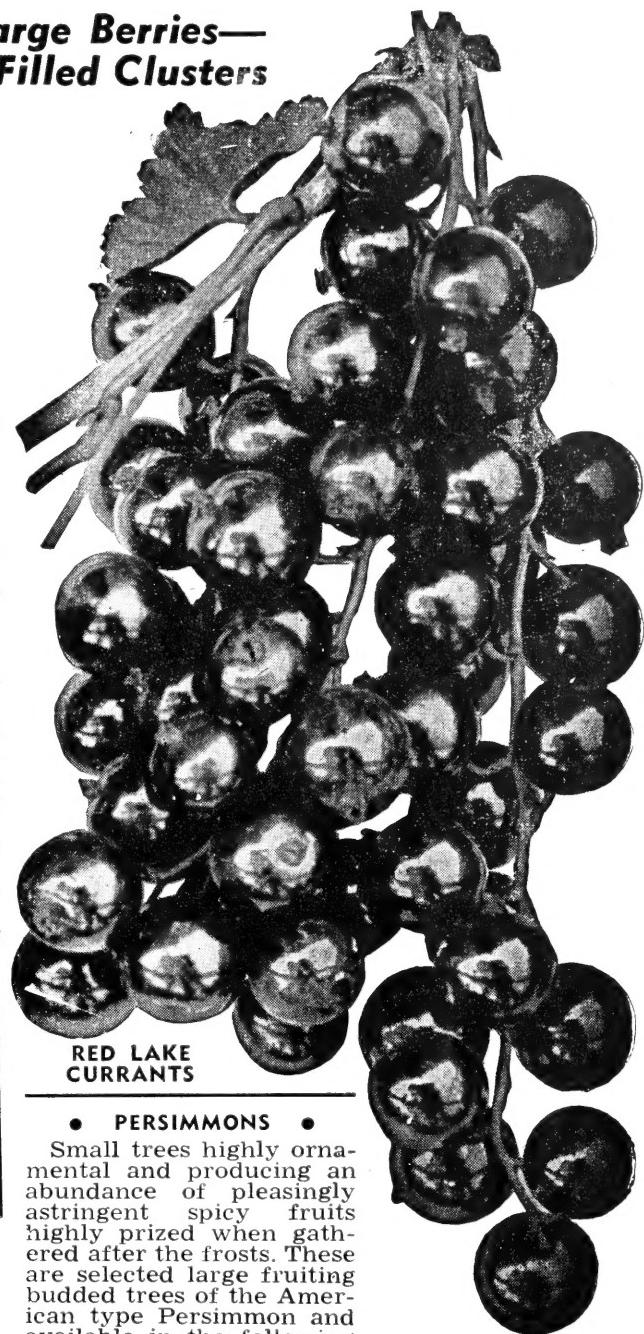

Downing & Poorman varieties can also be furnished at same price as Pixwell.

Write for quantity prices on both currants and gooseberries.

IMPORTANT—When Ordering

CURRANTS or GOOSEBERRY plants it is necessary for us to have the following information:

1. County and Township where planting is to be made.
2. Approximate distance from nearest White Pine (Five-needed Pine.)

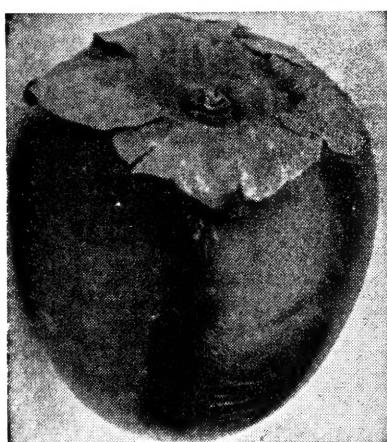

RED LAKE Currants

• PERSIMMONS •

Small trees highly ornamental and producing an abundance of pleasingly astringent spicy fruits highly prized when gathered after the frosts. These are selected large fruiting budded trees of the American type Persimmon and available in the following varieties:

Select Large Fruiting Persimmons

Persimmon

Killen and Dr. Spencer

Both of above varieties are high quality selections of the native hardy northern Persimmons. They start bearing at an early age — usually the third or fourth year. Size approximately 1½ inches in diameter.

Williams—

This is a male pollinator for the Killen and Spencer varieties. It is a beautiful small lawn tree and price is same as for other Persimmons.

Miles Seedless In all selections of Persimmons, one of the qualities most desired is to secure seedless fruits. Miles has as few seeds as any to date. The quality is excellent; the tree is very prolific and quite ornamental. When planted in proximity to another variety it will often produce seeds.

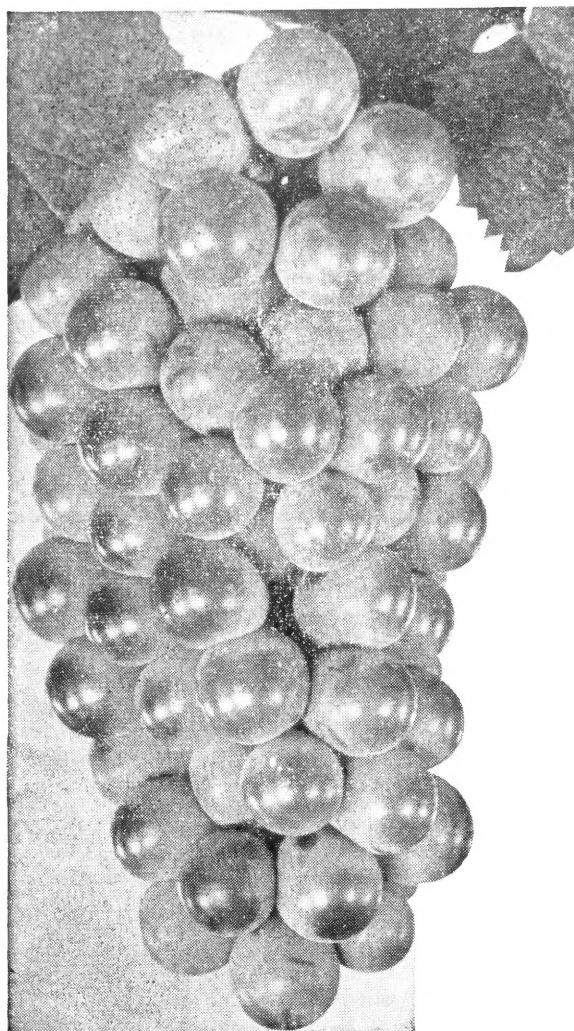

PRICE OF ALL PERSIMMON TREES
3 ft. trees — \$2.25 each — 3 for \$6.20
By Express

• Special Instructions •

You will be assured of success with Persimmons, Red Bud, Paw Paw and Dogwoods if at planting time you will wrap the trunks quite snugly with heavy paper or burlap—and the tops loosely with the same material. Remove the top protection on a cloudy day just as soon as buds show green in the Spring. The trunks may be left wrapped for the first year.

GRAPES •

Dependable Varieties
Sure to Fruit

You should have a few vines of Scarff's high quality grape vines in your garden. Use them for juice or jelly and enjoy them fresh from the vine.

• Grapes of Merit •

Caco (Red) By far the most dependable of our native red grapes for Ohio. Berries are very large, wine red, sweet, juicy and most palatable.

Catawba (Red.) One of the best commercial grapes in cultivation. Bunch large and compact; a strong grower and very productive; quality good.

Concord (Blue.) An old variety; does well wherever planted; good size; productive.

Fredonia (Early Blue) Finest early table grape. Bunches and berries large high quality and equally dependable as Concord for this section. One of America's best juice varieties.

Golden Muscat (Golden) Possesses the rich golden color and the fine aroma of the European Muscat. For home use and the roadside market it is one of the best. The vine is vigorous, productive and the clusters are very large, tapering, single-shouldered and compact. The berries are large, oval, juicy, and sweet.

Niagara (White.) The most popular white grape in existence. Fruit large and very productive; a good grower, ripening same season as Concord, equally good, valuable in every way.

Nursery Claims—Warranty—Terms of Sale

Scarff's Nursery warrants to the extent of the purchase price that nursery stock sold is true-to-name and as described within recognized tolerances. Seller gives no other or further warranty, express or implied, and will under no circumstances be liable for more than the invoice value at the time of purchase.

Notify Us Promptly if any shipment arrives in unsatisfactory condition and **Full Replacement** or adjustment will be made promptly. The living of trees and shrubbery is largely dependent upon conditions of weather and after-care beyond the Nurseryman's control; therefore we do not guarantee any stock to live other than to be in good planting condition when it is received by the customers. **Nevertheless**, we will replace any nursery stock (except Living Christmas Trees) at half purchase price if the complaint is made by July 15th of that same year.

We want you to be satisfied. If anything is wrong, please write us. Every effort will be made for satisfactory adjustment.

For our own protection we must emphasize that in no case are we liable for more than the original purchase price.

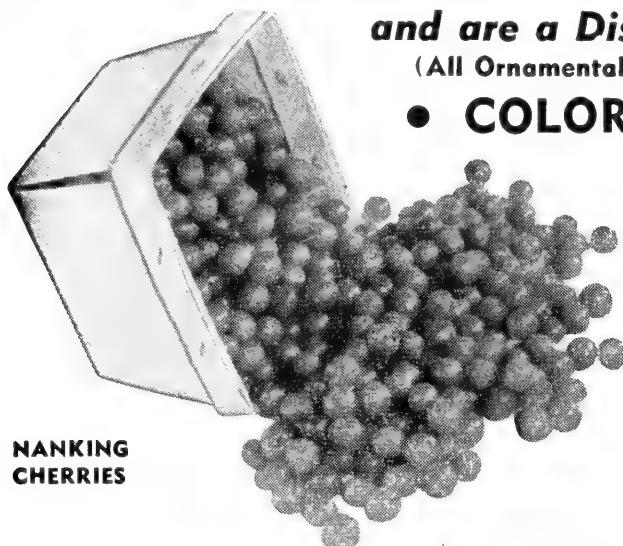

Our Terms: Payments invariably are cash with order, or one-fourth down, balance C.O.D.

ORNAMENTAL FRUITS

**Edible Fruits Which Lend a Striking Beauty to the Landscape
and are a Distinct Satisfaction to the Palate**

(All Ornamental Fruits Postpaid Unless Otherwise Indicated)

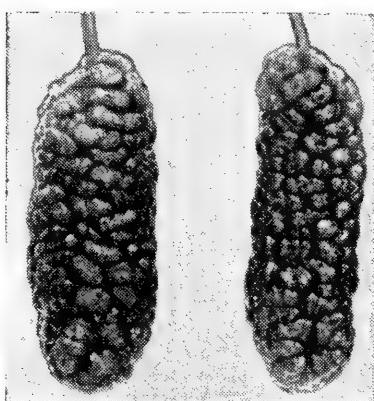

• COLORFUL BUSH CHERRIES •

Nanking Cherry (*Prunus Tomentosa*)

A most ornamental upright spreading shrub. Pink in bud, the tiny flowers open a pure white with striking contrast between the white flower petals and the bright red and orange calyx. In June the branches are studded with large rich red fruits, closely resembling our early May Cherries. Good to eat and they make beautiful rich jellies and wine. Set several plants for best pollination. Price, 2-ft. plants, \$1.00 each; 3 for \$2.75 Postpaid; 3-ft. plants same price by express.

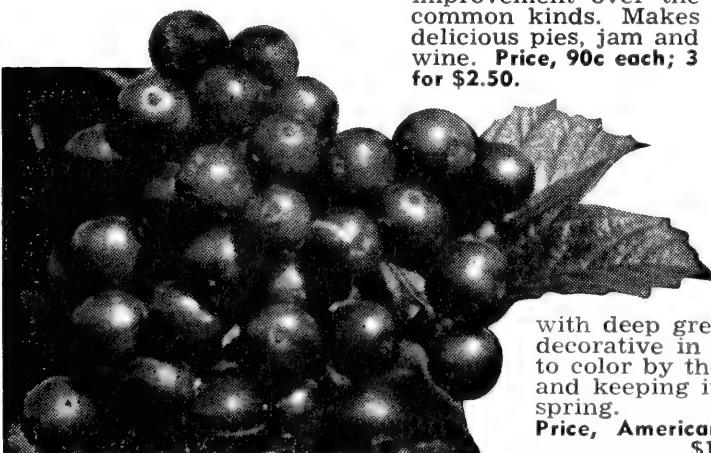

Other Bush Cherry Varieties: BROOKS and GOLDEN BOY. See page 12 for prices and description.

New American Mulberry

New American Mulberry

Often called the Everbearing Mulberry because the fruits are produced from June until September. These Mulberry trees are all very heavy fruiting, producing edible fruit which is most attractive to birds. They are excellent ornamental trees. Price, 5 ft. trees, \$2.50 each by Express.

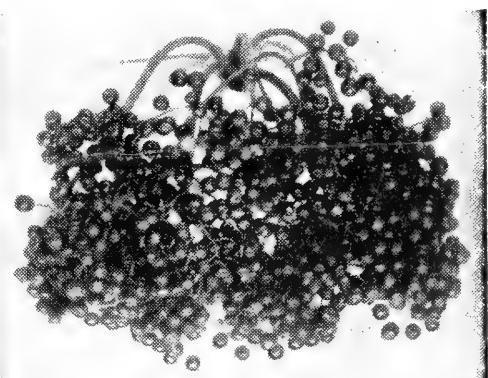

Adams Imp. Elderberry

The large berries and extra large fruit clusters of the New Adams variety are a decided improvement over the common kinds. Makes delicious pies, jam and wine. Price, 90c each; 3 for \$2.50.

Juneberry Plants quite bushy and ornamental, with clusters of red berries becoming dark blue when ripe. Price, 75c each; 3 for \$2.00.

Adams Imp. Elderberry Am. Cranberrybush WENTWORTH VARIETY

A beautiful native shrub bearing showy masses of white flowers in June, followed by large brilliant clusters of red fruit in late summer and fall. The fruit is very high in pectin, of striking red color, used chiefly in making jellies or sauce or served with meats. The plant is a highly ornamental shrub in itself, attaining a height of about 8 to 10 feet

with deep green foliage throughout the summer. Very decorative in fruit which hangs in clusters and begins to color by the end of July, remaining on the branches and keeping its bright scarlet color until the following spring.

Price, American Cranberrybush—Heavy 18-24 inch plants \$1.25 each; 3 for \$3.25, Postpaid.

Dwarf Trees

Large Standard Fruits On Small Sized Trees

Very Ornamental for the Yard and Garden

Plant the Dwarf Fruits

- For Crops of Fruit sometimes several years sooner than the standard sized trees.
- Where space is a limiting factor.
- To enjoy more varieties in a smaller space.
- These smaller trees are especially adapted to the newer Ranch Type Homes.

- All Dwarf Trees are approximately ●
3 to 4 ft. in height and by express ●

Dwarf Apple These trees are on Malling understocks that will develop trees only half the normal size or less and will start producing at an early age. Varieties: Transparent, Red Jonathan, Red McIntosh, Red Delicious, Yellow Delicious, Northern Spy. Price, \$3.00 each; 3 for \$8.50.

Dwarf Pear These Dwarf Pear are on Quince understocks to produce small, heavily productive trees. Varieties: Bartlett, Covert (large winter pear) and Ewart (Bartlett type but later). Price, \$3.00 each; 3 for \$8.50.

Dwarf Peach This year we are offering some of our finest peach varieties in true dwarf trees: Red Haven, Hale Haven, Elberta and Red Gold Giant (very large-similar to Hale) Price, \$2.50 each; 3 for \$7.00.

Attractive—Ornamental Dual Purpose Shrubs

Bush Cherries

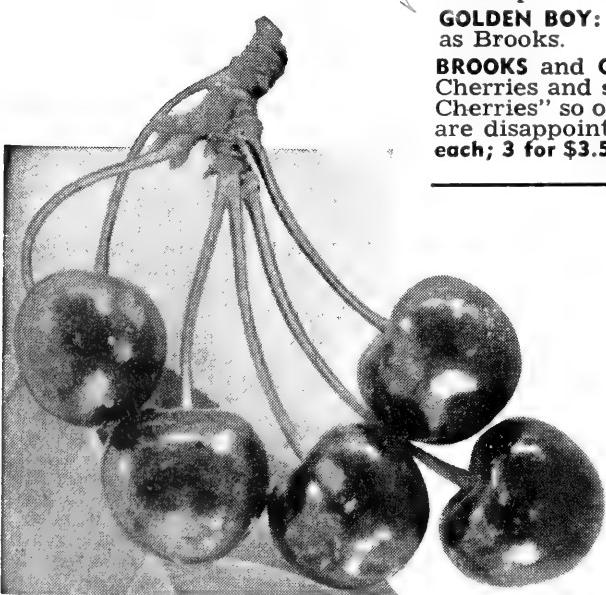

Bloom profusely and arch their branches down with their numerous large cherry-like fruits resembling the common sweet cherries in size and texture.

We are listing two high quality varieties:

↗ **BROOKS:** Produces dark glossy red fruits with flesh dark red to the pit. Truly an aristocrat of the ornamental fruits.

↗ **GOLDEN BOY:** Golden amber color and of the same high quality as Brooks.

BROOKS and **GOLDEN BOY** are selected named varieties of Bush Cherries and should not be confused with the common type "Sand Cherries" so often offered at considerably lower prices and which are disappointing in quality. **Bush Cherry Prices:** 3 ft. trees, \$1.25 each; 3 for \$3.50.

Northstar Cherry

New Dwarf Cherry

★ NORTHSTAR ★

A True Dwarf Tree producing real pie cherries as good as Montmorency.

This is a Morello type cherry with fruits about three fourths of an inch in diameter; roundish heart shaped. Color bright red changing to dark glistening mahogany red. Flesh is juicy, tender and of high quality. The ripened fruits will remain on the tree in good condition for about two weeks. The tree is small, productive, self fertile and is resistant to the leaf spot and brown rot diseases.

Northstar Cherry should be in every home garden.

We offer it this year, in large 4-5 ft. trees for only \$3.00 each; 3 for \$8.75.

APPLE

**Scarff's List of Good Dependable Varieties
Selected for Quality, Productivity and
Dependability**

PROPAGATED FROM BUDS TAKEN
FROM OUR OWN BEARING ORCHARDS

"Eat An Apple A Day"

No other fruit can be relished in so many different ways—crisp and juicy for eating out of hand; pies; sauce, etc.—and all full of the essential vitamins.

Melrose A New Variety produced by crossing Jonathan with Delicious by the Ohio Experiment Station.

Here is a Jonathan type apple that will keep late into the winter. It has all of the good qualities of Jonathan with a twang of Delicious flavor—crisp, juicy, and firm.

Fruits are larger than Jonathan, firm, crisp, and juicy. Color is an attractive carmine red with a live yellow undertone.

The trees bear quite young and are upright, spreading very similar to Jonathan.

Melrose promises to become a valuable addition to both home and commercial apple plantings.

(Price: Same as standard varieties).

MELROSE | OHIO'S NEW APPLE

Lodi Large Waxen Yellow Early Transparent Type

Color is the clear attractive yellow of the Transparent. Because of their large size, they may be picked at the same time as Transparent but are at their best if allowed to hang a week or ten days later. Commercial growers are planting Lodi in preference to Transparent.

Scarff's Miami Double Sport of Stark

Better Color—Finer Texture—Higher Quality

MIAMI is a high quality eating apple, crisp, juicy and having a rich yellowish flesh when ripe. They are good to eat soon after picking but develop their best quality in mid-winter and keep in good common storage until spring.

5-N-1 Apple

RED DELICIOUS - TRANSPARENT

YELLOW DELICIOUS - JONATHAN

STAYMAN WINESAP

Five delicious varieties of apples on one tree providing fresh fruit all season.

We are offering these 5-N-1 Apple trees to our customers with limited planting space. Price, 2-yr.-old trees, 4-5 ft., well-branched, at \$2.50 each.

Dolgo Crab Fruit fiery red and hangs on the tree long after ripe—making it exceedingly ornamental as well as valuable for making jellies. We can recommend it as one of the finest and most beautiful crabs grown.

Hyslop Crab Best late fruiting crab. Desirable for both home use and market. One of the best known and most widely propagated varieties.

Flowering Crab Apples

For both utility and color plants some of the beautiful Hopa and Almey Crab apples described on page 20 of this Catalog.

Summer Varieties

Lodi, Jefferis, Summer Rambo, Transparent, Wealthy.

Early Winter Varieties

Double Red Delicious, Yellow Delicious, Grimes Golden, New Red Jonathan, McIntosh, Melrose.

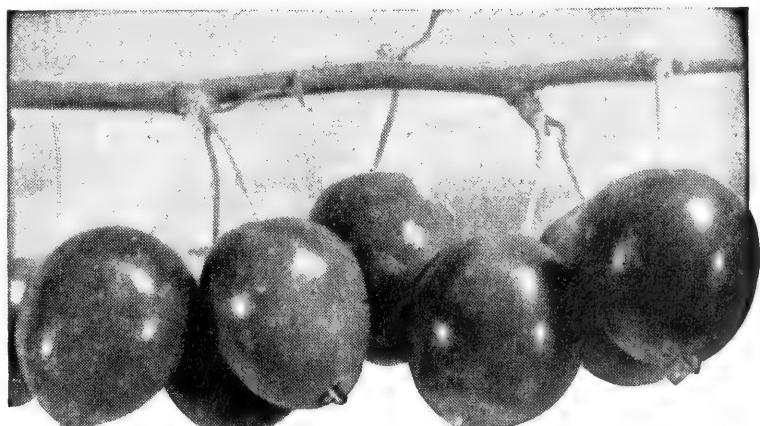

Late Winter Varieties

Gallia Beauty, Miami Red, Double Red Stayman Winesap, Rome Beauty, Turley Winesap.

Price Apple Trees

All heavy 2 yr. old trees branched and well rooted.

	Price	Each	10 rate	25 rate
Standard 4-5 ft. trees	\$1.65	\$1.45	\$1.35	
Extra Heavy 5-6 ft. trees .	2.00	1.85		1.75

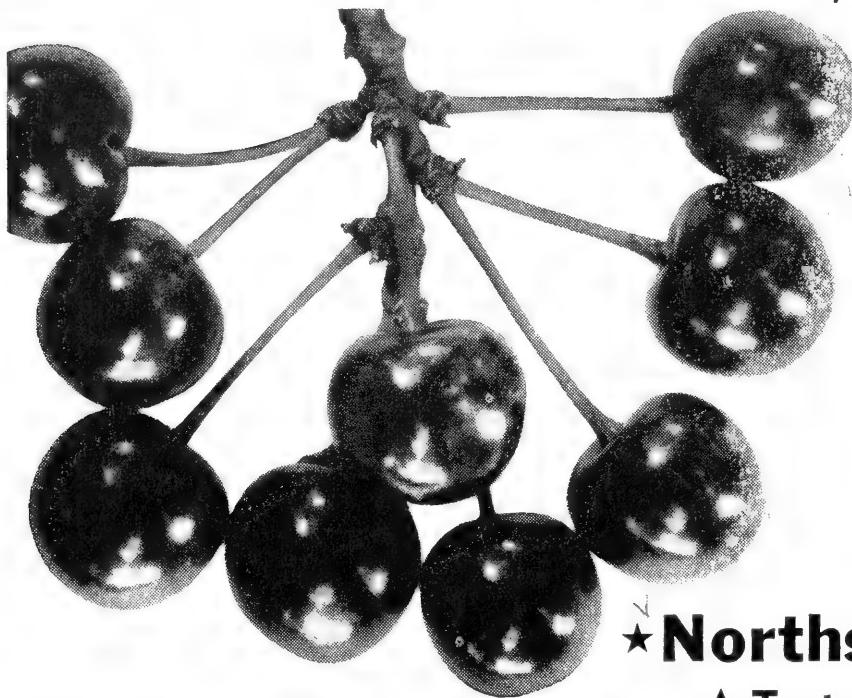

Fiery Red Dolgo Crabs Produced In Clusters as profusely as Cherries.

• Montmorency Cherry •

Heavy Fruiting — Widely Adapted

Bears Three Years
After Planting

• Bush Cherries •

These shrubs serve as a very beautiful and colorful ornamental bush, attaining a maximum height of 6 ft. and a heavy fruiting ability of delicious edible fruits. These Bush Cherries are quite free from serious insect and disease injury. Plant more than one variety to insure proper pollination.

Brooks A wonderfully fine bush cherry, producing very high quality attractive large dark red fruits. Truly an aristocrat of the ornamental fruits.

Golden Boy A new variety of beautiful golden amber color of the same high quality as Brooks. PLEASE DO NOT CONFUSE these two select varieties with the common sand cherries offered at considerably lower prices and which are disappointing in quality. Price, 2-3 ft. \$1.25 each.

Nanking Cherry (*Prunus Tomentosa*) A most ornamental upright spreading shrub. Pink in bud, the tiny flowers open a pure white with striking contrast between the white flower petals and the bright red and orange calyx. In June the branches are studded with large rich red fruits, closely resembling our early May Cherries. Good to eat and they make beautiful rich jellies and wine. Set several plants for best pollination. Price, extra heavy, 2 ft., \$1.00 each, 3 for \$2.50 by express.

SPECIAL NOTICE

When order includes Nursery items priced in Catalog as "Prepaid" and others "Express Collect" the entire order will be sent "Express Collect." In this case you may deduct 5% from the "Postpaid" prices when remitting.

• Sour Cherries •

MONTMORENCY

Most dependable and best all-around cherry for general planting — Freezing — Canning — Pies — Preserves.

Montmorency and Early Richmond are both considered the sour or canning type cherries. They are the hardest and most dependable for producing regular crops with trees literally a mass of dark red fruits in early July. There is a tremendous demand for these cherries in the fruiting season.

Early Richmond

The best early cherry. Bears 7-10 days before Montmorency. A very good cherry for all culinary uses.

★Northstar Cherry★

A Tasty New Pie Cherry

Dwarf—On Small "Easy-to-pick" Trees-

Resistant to Cherry Diseases. Just the kind of tree for lawn and garden planting. Montmorency sized fruits with mahogany red skin. Flesh is tender and juicy.

Price, heavy 4-5 ft. trees \$3.00 each; 3 for \$8.75.

• Sweet Cherries •

Black Tartarian (Sweet.) Most dependable of the standard large dark red sweet cherries. This variety and Early Seneca seem to be the hardiest for planting in the North Central and Mid-Western States.

Windsor (Sweet.) Should be included as a pollenizer in all Sweet Cherry plantings. Large, dark red, excellent quality and free from rot. Trees hardy, thrifty, and not particular to soil requirements.

Royal Anne (Sweet.) Ranks first for canning by virtue of its rich colored fruits of highest quality. Fruits golden yellow blushed with light red cheek.

Cherry Tree Prices

By Express F.O.B.	Each	10 Rate	25 up

Northstar 2 yr. 4 ft.	3.00	2.85	—

Peaches

Scarf's List of
Best Peach Varieties

• Yellow Peaches •

Golden Jubilee Now the standard early yellow peach, ripens 3 weeks before Elberta.

Red Haven Earliest good yellow peach. Color bright red. Quality excellent. Excellent for freezing.

Hale Haven A new high quality medium early variety from Michigan. Yellow freestone. Quite hardy. We consider Hale Haven the most desirable all-around variety for both home and commercial planting. This is truly a top-notch peach. Finest for canning and freezing.

Shippers Big Red (Late Red.) More desirable than Elberta in every respect—better color, quality, yield and tree characteristics. A mighty fine peach.

Elberta The standard mid-season yellow peach.

• White Peaches •

Cumberland Hardiest and best of the early white peaches. Large size free stone. This is a profitable early white freestone variety.

Belle of Georgia Most dependable white peach of medium size, but has excellent quality—Very juicy and fine for eating right from the tree.

JERSEYLAND

Most Promising New Commercial Variety

Ripens a few days before Golden Jubilee and is superior to that variety and is harder in bud.

Fruit is very dark red, yellow fleshed and firm. Complete freestone when dead ripe.

Jerseyland produces good crops in years when most other varieties freeze out.

Smaller commercial grade tree prices on request

• Apricots •

Few Fruits Have Such Delectable Flavor

In early spring the trees are a mass of Pinkish White Blossoms, and are most colorful. In home plantings, the trees are more protected and thereby are less subject to frost damage.

Moorpark An old English variety and is probably the most widely grown of all Apricots. The fruits are of the largest size, handsome appearance and have long been the standard of excellence in both appearance and quality. Color orange yellow with a distinct blush on the side next to the sun and flecked with reddish dots. The flesh is firm, sweet, juicy, and of highest quality.

Hardy Northern This Apricot has been grown in Michigan for a number of years and has proven fruitful even under their northern winter conditions. We are of the opinion that it is of the Hungarian type. The fruits are of good size, juicy and of highest quality. A good companion for Moorpark.

Quette Nectarine

Hardy as a peach, a delicious sweet flavor, smooth skin and with striking red color. Our pickers call this the "Fuzzless Peach"—and do they like them.

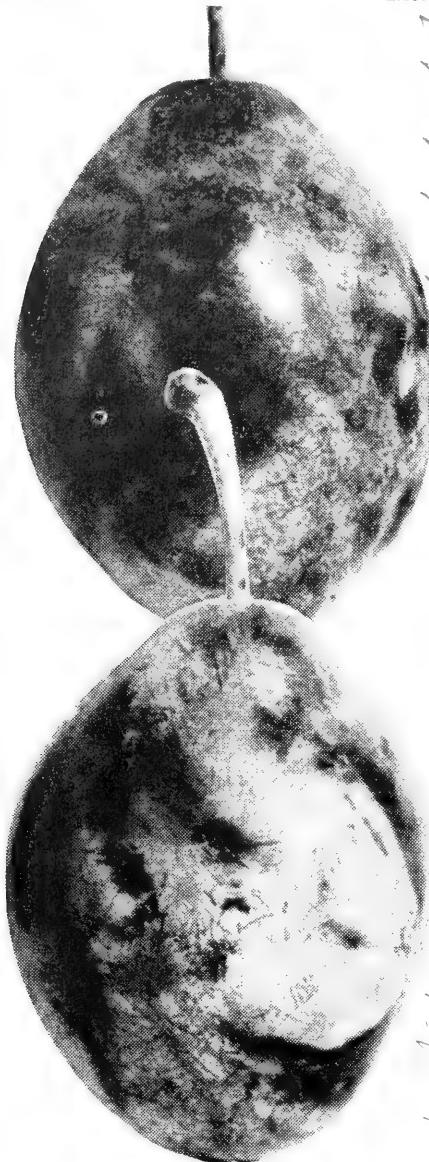

HARDY NORTHERN APRICOTS

Delicious Plums

STANLEY PLUMS —
Best of 75 varieties
tested at Colorado Ex-
periment Station.
Hardier, heavier yield-
ing at early age.

All trees on this page are sent by express, not prepaid

	Each	10 rate	25 rate
Strong 2 yr. 4-5 ft. trees	\$1.85	\$1.75	\$1.65
Extra select 5-6 ft. trees	2.25	2.15	2.00

Bradshaw Very large fruit; dark red; flesh inclined to yellowish-green.

Damson Everyone is familiar with the old-fashioned Damson plums and there is always a good demand for them.

Reine Claude Best of the Green Gage type. Very large, greenish; fine flavor.

Italian Prune A valuable plum of fair quality for dessert. Long, oval, purple with a thick blue bloom; flesh firm and pleasant, separating from the stone.

Lombard A fine red plum. An old time favorite, still one of the most dependable and heaviest yielding for the average planter.

Stanley Comes into bearing very early. It is a heavy producer, adapted to a wide range of soils and has been favorably reported from all parts of America. It is a fine blue plum of medium size and high quality. Stanley is now rated at the top of the list of Commercial Plums for Ohio and other Central States.

PLANT PLUM TREES IN YOUR LAWN OR HOME ORCHARD

1. They are easy to transplant.
2. The trees come into bearing in 3 to 4 years and are hardy dependable producers.
3. The Plum is a good small tree for the back yard. Blossoms are very ornamental and showy in very early spring.
4. The fruits are delicious for eating fresh, preserves, canning and many other culinary uses.
5. Many varieties such as Damson, Bradshaw and Stanley may be grown with little special attention and spraying—although all fruits respond to the best care possible.

PEARS

Bartlett The standard of excellence in pear varieties. One of the most popular and should be included in all plantings.

Duchess Very large, buttery—a fine canner.

Kieffer One of the most dependable winter pears. Bears very young. Fruit large and keeps until Christmas.

Seckel Best for pickling, highest quality, medium size.

Prices of Pear Trees

Standard Prices	Each	10 rate	25 rate
Strong 2 yr. 4-5 ft. trees	\$1.85	\$1.75	\$1.65
Extra select 5-6 ft. trees	2.25	2.15	2.00

Two New Superior Pears

Limited Supply of Trees This Year

Covert One of the largest of all cultivated pears. Resembles Bartlett in general appearance but ripening two months later. An excellent winter pear for dessert and canning.

Ewart The fruit is remarkable for its large size and good quality. It is a greenish-yellow, netted with russet and has a fine, melting, tender, juicy flesh. Season is one month later than Bartlett.

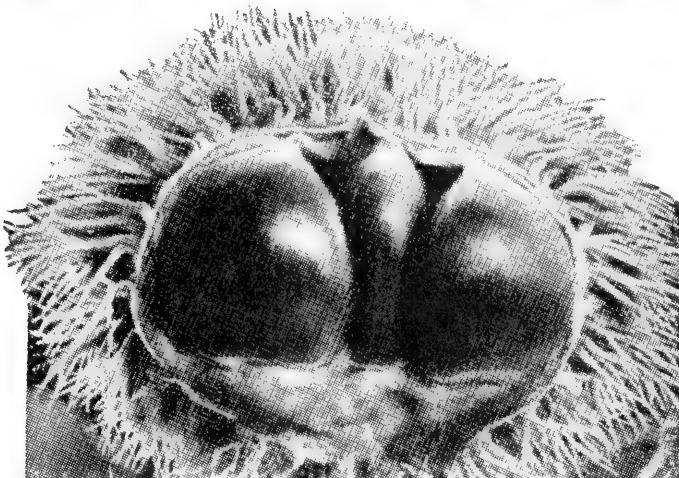

(These two new varieties are the same price as the Standard Varieties.)

Orange Quince The large, round yellow fruits are unexcelled for Jellies, Marmalades and Preserves. The trees are quite ornamental; dwarf in growth; round in shape and well-filled. Price same as for Pears.

Chinese Chestnuts

Filberts—Hazelnuts

Barcelona, DuChilly Varieties

The nuts are large and of excellent quality. Highly recommended as a smaller shrub that does not require much space. Free from diseases and noted for its prolific bearing of delicious nuts. Plant at least one tree each of these splendid varieties for proper pollination.

Hardy Pecans

Giles — Major These are the hardy, large fruiting varieties that will thrive and produce heavy crops of nuts in our North Central States. (Do Not Confuse These With the Seedling Trees So Often Offered At A Much Cheaper Price.) The Pecan is a fast-growing, tall upright tree suitable for lawn planting.

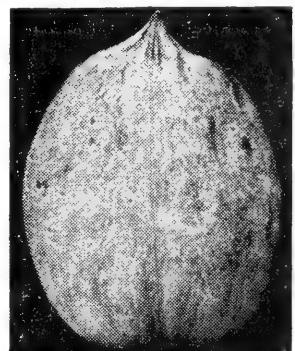

Grow and enjoy these delicious Nuts right at home. They bear in 3-4 years and are a luxury and a novelty for everyone.

Hicans

A Cross of Hickory and Hardy Pecan

Retains the delicious flavor of both parents. Hardy, here in our Northern States, thrifty growing, and produces fine large nuts as you will see in this illustration.

Be the first in your community to produce these unique nuts.

Shagbark Hickory

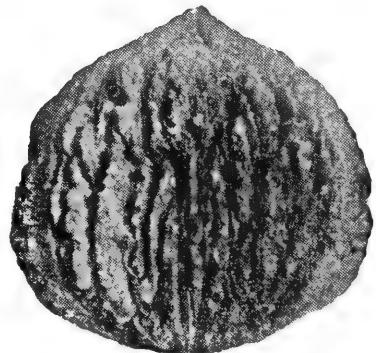

This is the large meaty type hickory nut so often found in our native woodlands. These trees produce quite true to type. Our trees are not budded but are fine 4 to 5 ft. trees and priced at \$3.00 each; 3 for \$7.50.

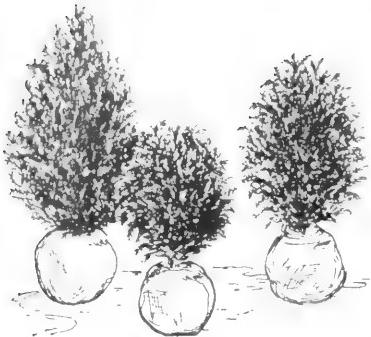

Black Walnut

Large High Quality Kernels

Most desirable for home planting. Commercially, all Black Walnut trees are valuable for both nuts and timber. Recently referred to as "Black Gold."

The trees are fast growing and come into bearing at a very early age.

Evergreens

For All Winter Beauty

These are the plants that will give your planting a striking green effect throughout the winter. The varieties we are offering are the hardy types that are good compact plants and are easy to transplant. Plant them in front of your porches, in foundation or group plantings. They will double the beauty.

Compare Scarff's Evergreen prices and quality with any other source.

All Evergreens are **heavy, field-grown specimens**, fresh dug and in perfect planting condition to give you better results in landscape planting—and are guaranteed as such.

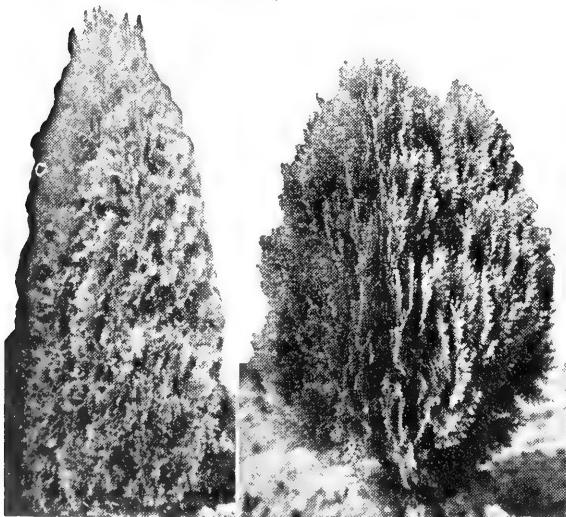

Prices on all Ball and Burlap Evergreens are F.O.B. Nursery. When shipment is to be made, add 75c per tree to cover packing charges.

Flowering Crab-Apples

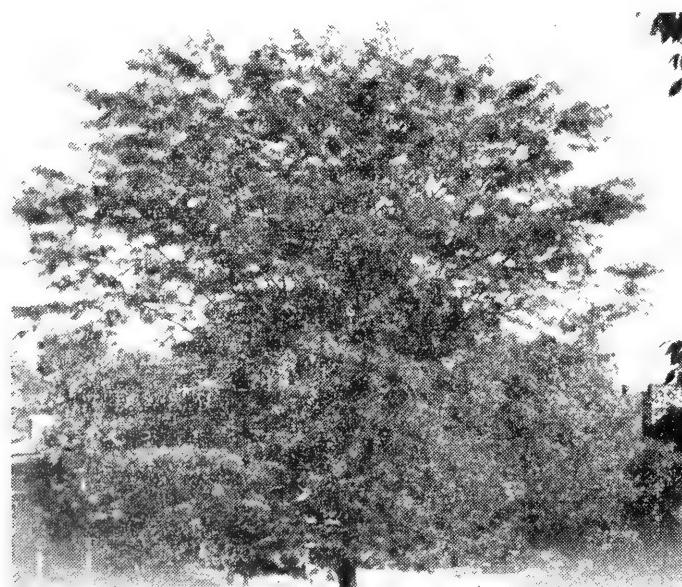

● New Almey Crab ● Outstanding in Beauty

Fiery Crimson Blossoms Large as Silver Dollars

The glistening fiery crimson blossoms as large as silver dollars crowd the branches to the tips. ALMEY takes its place as one of the most beautiful Flowering Crabs in America.

From a distance the tree looks like a "mass of flame." The fruits are small, oval, maroon, and hang on into the winter season.

ALMEY blooms young. Two-year old trees in the nursery were in bloom this year. Almey will be the sensation of your neighborhood. Price, 4-5 ft. trees, \$3.75 each; 5-6 ft. \$4.35 each.

Moraine Locust

Colorful Masses of Flowers in Springtime

No other Flowering Trees Equal
The Crabs in Profusion of Bloom

An Excellent Tree for Landscaping
Ranch-Type Homes

Hopa Crab Crimson buds opening in April. Fruits red inside and out, hanging on until late Autumn. Trees are thrifty growing, semi-upright and with healthy bronze green foliage, very attractive throughout most of the year.

Dolga Crab This is really a utility crab apple with pure white blossoms followed in August by cherry red fruits in clusters all over the tree which hang on long after ripe. The fruits make the very finest jelly.

Price, Dolga and Hopa Crabs

4-5-ft. trees ... \$2.00 each... 3 for \$5.00
5-6-ft. trees ... \$2.50 each... 3 for \$6.00

Kwanzan Flowering Cherry

Double flowering pink blossoms. The fame of the Flowering Cherries along the Potomac River Drive at Washington, D. C., is nationwide. Price, 4-5 ft. trees, \$4.75 each.

Weeping Cherry (Prunus Sub. Pendula)

Most ornamental, hardy weeping type flowering cherry. E. H. Wilson, the great plant explorer, proclaims this to be "the most floriferous and perhaps the most delightful of all Japanese Cherries." Delicate pinkish flowers before the leaves in Spring. Price, 3 ft. whips, \$1.25 each, 3 for \$3.00.

Clump Birch

Plant three of our 2-3 ft. Birch seedlings in the same hole and produce the picturesque Birch Clump effect so desirable in lawn and landscape plantings. **SPECIAL—3** Birch trees 2-3 ft. for \$1.75; 4-5 ft. 3 stem clumps \$4.50 each.

● Moraine Locust ●

The New Fast-Growing Shade Tree That Encourages Beautiful Lawns.

Honey Locust type—thornless, seedless, storm resistant and hardy.

The lacy luxuriant dark green foliage permits plenty of light to filter through to encourage the grass beneath.

The Moraine Locust is the ideal tree for the lawn, street or park plantings. Price, 6-7 ft. branched tree. \$7.50 each.

Tulip Poplar

A clean fast growing tree, most desirable for lawn planting. The large yellow and orange tulip-like flowers against bright glossy green foliage is very striking. Price, 4-5 ft. branched trees, \$2.85 each; 3 for \$10.00.

{ All Trees on This Page—
By Express Not Prepaid }

Crimson King

New Red Norway Maple

Brilliant Dark Crimson Throughout the Summer

Crimson King is truly an aristocrat and probably the most colorful of all the larger ornamental trees.

The foliage of Crimson King is a brilliant dark crimson from the time it leafs out until its leaves fall. An exceptionally fine tree for city plantings, not harmed by smoke, gasses, or dust. A very long-lived tree which becomes more attractive each year.

Be among the first to have one of these outstanding New Red Maples in your community. Price 6-7 ft. trees, \$6.50 each; 7-8 ft. trees, \$7.95 each; 8-9 ft. trees, \$9.50 each.

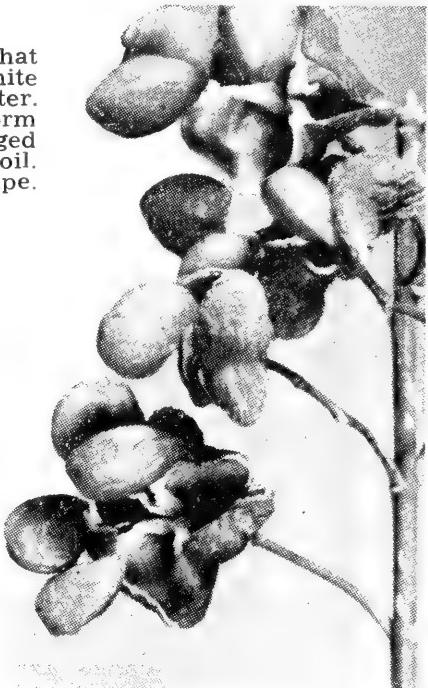

CRIMSON KING

Washington Thorn (Crataegus cordata)

A Refined Small Tree for the Modern Home

Handsome Foliage — Showy Fruits

An upright and compact growing tree of medium height that makes an especially fine specimen for the lawn. Clusters of white flowers followed by bright red fruits lasting well into the winter. The Hawthorns are closely related to the Crab-Apples, and form dense shapely small trees (to around 20 ft.). They are hardy, rugged growers and thrive in exposed locations and most any kind of soil. At all seasons of the year they add beauty and color to the landscape. Price, heavily branched 4-ft. specimens, \$6.35 each.

Bittersweet Tree (Euonymus Yedoensis)

Clusters of True Bittersweet Fruits

A most attractive small tree that attains a height of only about 10-12 ft. (See illustration at right.) The habit of growth is roundish open topped, with leaves, which turn orange-red in autumn, as much as 4-5 inches long. Thrifty, hardy, free from diseases and a highly desirable small tree. Prices, 2 yr. 18-24 inch well branched \$1.35 each, 3 for \$2.75.

Tree of Fire (Prunus Cistena)

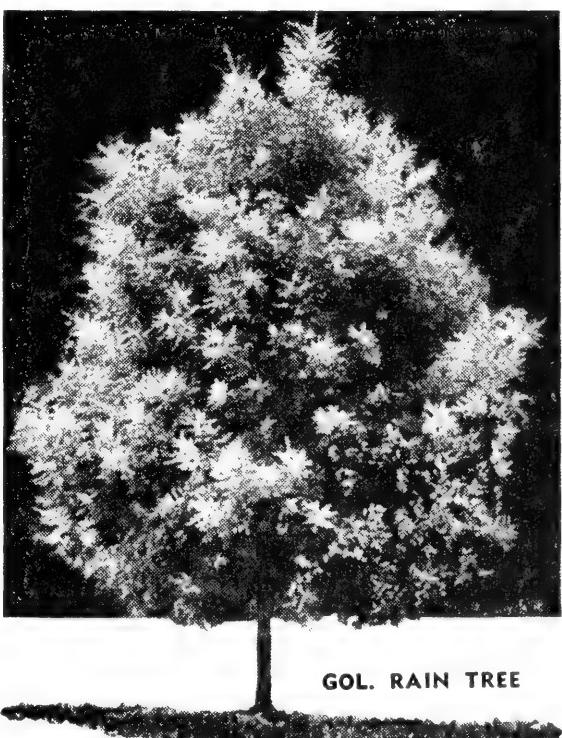

Here is the best tree we know for its vivid red foliage that stays red all summer

Brightest color of all the Prunus or so-called "Red-leaved Plum." The tree has a shapely top; attains a height of only about 10 ft. When flowering in spring it has myriads of light pink blooms scattered throughout the brilliant red foliage and followed by small purplish fruits. Here is one of the finest colorful small ornamental trees. Price, 3-4 ft. trees, \$2.00 each; 4-5 ft. trees \$2.95 each.

BITTERSWEET TREE

✓ **Red Leaf Peach** Most attractive pink blossoms — red foliage throughout the summer—and besides it produces heavy crops of delicious medium sized peaches. Supply is limited. 4-5 ft. trees \$1.65 each, 3 for \$3.95.

GOL. RAIN TREE

Cornus Mas (Cornelian Cherry) 16 to 18 ft. Handsome small tree or shrub with glossy foliage, most attractive in the early Spring with its yellow flowers and again in the Fall with its shining scarlet fruits. An old time favorite but most desirable now for the smaller type houses. Price, well branched 3 to 4 ft. trees \$1.65 each; 3 for \$4.35.

Golden Rain Tree Sometimes Called "Varnish Tree."
A Very Handsome Tree (25-30 ft.)
For Every Lawn

Produces Enormous Panicles of Striking Yellow Flowers—(See illustration on right)

In late summer, the bladder-shaped pods adorn its branches for many weeks. The fern-like foliage with many small leaflets, like brilliant yellow flames and large seed pods all make for all-summer attractiveness. Picturesque branching for winter beauty. Price, 3 ft. trees, \$1.65 each; 3 for \$4.50.

(All Trees on this page by Express—not Prepaid)

Roses . . .

Hybrid Teas (—Bloom Monthly—) June till Frost)

Forty-Niner (Pat. 792) The most striking bi-color rose ever introduced. Inside the petals are a vivid Oriental red, while the outside are chrome yellow. Price, \$2.50 each; 3 or more \$2.20 each.

Lowell Thomas (Pat. 595) Considered to be one of the best of the Yellow roses. A very profuse bloomer. Price, \$2.00 each; 3 or more \$1.75 each.

Mirandy (Pat. 632) The huge 50 petaled dark glowing red blooms make this an exceptional rose that should be in every garden. Price, \$2.25 each; 3 or more \$2.00 each.

Mojave (Pat. 1176) Blooms like the desert sunset—a blend of salmon, apricot and orange. Vigorous grower. 1954 Rose Winner. Price, \$2.75 each; 3 or more \$2.40 each.

New Yorker (Pat. 823) A very hardy and vigorous grower. A truly red, red rose that stays red until the last petal falls. Price, \$2.00 each; 3 or more \$1.75 each.

Peace (Pat. 591) Our finest rose. Its large double blooms pass through a wide range of color, showing tints of yellow, pale gold, cream and ivory. Price, \$2.50 each; 3 or more \$2.20 each.

Queen Elizabeth (PAF) One of the 3 All-America Winners for 1955. A Grandiflora, the newest thing in Roses. An extremely tall vigorous plant with perfect phlox pink buds and flowers in big clusters. Price, \$3.00 each; 3 or more \$2.60 each.

Tiffany (PAF) 1955 Hybrid Tea All-America Rose Winner. Warm, clear pink color. Produces extremely large blooms and is a vigorous grower. Price, \$3.00 each; 3 or more \$2.60 each.

**Some Of The Better
"Patented" Varieties**

The Glorious Floribundas

(Low growing and they bloom continuously)

Carousel (Pat. 1066) A sparkling red floribunda that is very fragrant and disease resistant. Lots of bloom even in intense heat. Price, \$2.00 each; 3 or more at \$1.75 each.

Goldilocks (Pat. 672) A true golden yellow floribunda. The clusters of bright yellow blooms are very colorful and showy. Price, \$1.50 each; 3 or more at \$1.30 each.

Jiminy Cricket (P.A.F.) This NEW rose is the All-America floribunda winner for 1955. A vigorous plant with great bursts of orange-red bloom shading with age to deep salmon pink. Price, \$2.50 each; 3 or more \$2.20 each.

Masquerade (Pat. 975) A rare novelty for your garden. Each cluster of 10-25 buds shows blooms of yellow, red, pink, lemon and sometimes orange. All of these colors appear at once in a magnetic combination. Price, \$2.00 each; 3 or more \$1.75 each.

Red Pinocchio (Pat. 812). The petals are an attractive deep satiny red on the outside and bright red on the inside. Price, \$1.50 each; 3 or more \$1.30 each.

• CLIMBERS •

Cl. Crimson Glory (Pat. 736) The rich crimson color and the profusion of blooms for a long period of time make this one of the outstanding deep red climbers. Price, \$2.50 each; 3 or more \$2.20 each.

Cl. Peace (Pat. 932) Blooms identical with those of the bush Peace rose, that come on long, fast growing canes. Price, \$2.00 each; 3 or more \$1.75 each.

Rose varieties listed on this page:

\$ 1.50 each Postpaid

3 for \$ 4.25 Postpaid

● EVERBLOOMING ROSES ●
(Hybrid Teas)

Crimson Glory Deep crimson red with large size blooms.

Etoile De Hollande Brilliant red blooms of magnificent size.

Joanna Hill Large orange yellow with bronze shading.

K. A. Victoria Beautiful creamy-white with large double blooms.

Mrs. P. S. duPont Golden yellow blooms which lighten with age.

Pres. Hoover Beautifully colored buds with blooms of varying orange shades.

Pink Dawn Perfectly formed buds with clear lively pink blooms.

● CLIMBING ROSES ●

Blaze A blazing red everblooming climber.

New Dawn Everblooming climber with delicate apple blossom pink blooms.

White Dawn Beautiful everblooming white climber.

● FLORIBUNDA ROSES ●

Low growing Roses that
are continuously in bloom from
June till frost.

Dagmar Spaeth Large pure white flowers produced freely all summer.

Floradora A vigorous grower producing masses of orange-scarlet blooms.

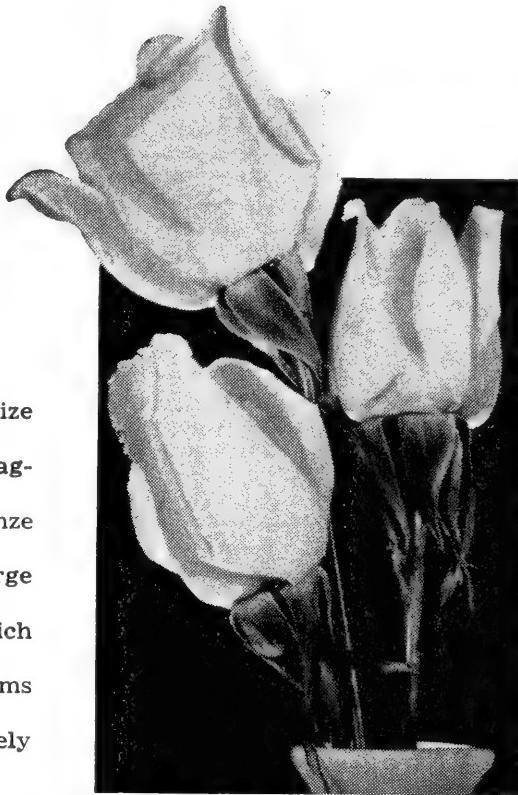

Rosenelfe Very large silvery rose pink blooms all summer.

● SHRUB (RUGOSA) ROSES ●

These shrub roses have very fragrant blooms and are excellent for Rustic use or Naturalizing. Grows over 6 ft. tall. Very hardy. Neither gardener's neglect nor the severest winter will stop their regular blooming.

Harrison's Yellow Fragrant, bright yellow blooms on long stems. Foliage small, rich green. Very vigorous grower.

Grootendorst A very vigorous and hardy shrub rose with bright red blooms.

POTTED ROSES

All Rose varieties listed on these 2 pages are available in pots, "already growing." These roses are planted in a special soil mixture; fertilized and sprayed regularly to give you the healthiest roses available. In planting, do **NOT** remove the pot as it will deteriorate in the ground. These potted roses can be planted anytime from May to October. Prices for potted roses: 50c per pot additional.

**ORTHO
Rose Dust**

Prevents Mildew and Black Spot.

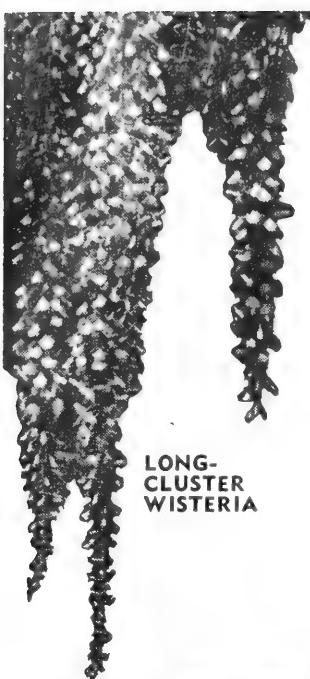

Controls Aphids and other Rose Pests.

Contains 2 insecticides and 2 fungicides in a handy, ready-to-use, "pump-action" duster.

Price, 8 oz. duster complete \$1.00. By mail add 25c per container for postage and packing.

Ornamental Vines

• Colorful and Graceful •

LONG-
CLUSTER
WISTERIA

SILVER LACE VINE

Goldflame Honeysuckle

Longcluster Wisteria These new very long blossomed Wisterias are selections made from native Oriental Wisterias of the most delicate shades of color.

—**Rose Weeping Wisteria** —A favored color is this superior lovely clear pink. Flower clusters on young plants. A real sensation. Price on all Longcluster Wisterias, \$1.25 each.

Purple Wisteria

Grafted plants propagated from heavy blooming wood as an assurance of an abundance of flowers at an early age. Price, \$1.25 each; 3 for \$3.50.

All vines listed on this page strong 2-yr. field-grown plants (unless otherwise specified) and will be sent by Mail, Postpaid.

Tree Wisteria Potted. For sale at Nursery. Cannot be shipped. (Colors: Purple and Pink)

Silver-Lace Vine (*Polygonum Auberti*) This charming climber will clamber gracefully over a trellis, porch, or arch, or any other support. When in bloom it is a cloud of lacy, misty white with tints of cream and pale rose of most exquisite beauty. Price, 2-yr. vines, 75c each; 3 for \$2.00.

• Sweet Autumn Clematis •

(*Clematis paniculata*) Fragrant white flowers are produced in reckless abundance in September. Later, its feathery seed pods create an illusion of a second blooming period. Price, 85c each; 3 for \$2.25.

• Large Flowering Clematis •

Jackmanni (Purple); **Henryi** (White); **Mme. Edw. Andre** (Red). Price, \$1.35 each; 3 for \$3.75.

Bittersweet Vine Very large fruiting strain. Most decorative in the fall. Price, 75c each; 3 for \$2.00.

Trumpet Flower Perfect, trumpet-shaped orange-red flowers. Fine for fences, etc. Price, 50c each; 3 for \$1.25.

Boston Ivy The most desirable Ivy for chimneys, brick and stone walls. Price, 50c each, 3 for \$1.25.

English Ivy Excellent indoor house plant. Also fine for brick or stone walls or chimneys. Price, heavy plants, 50c each, 3 for \$1.25.

Sweet Scented Honeysuckle An oldtime favorite that fills the summer air with fragrance. Excellent for fences; as a ground cover and to hold embankments. Price, 75c each; 3 for \$2.00. (Write for quantity prices for ground cover plantings.)

NEW Golflame Honeysuckle

Large flame colored trumpets lined with gold in profuse clusters the first year. Fragrant after nightfall. Very hardy. Will climb a trellis or spread as a ground cover. If pruned it becomes a striking specimen shrub, or plant it in a row and shear to make an everblooming hedge. Price, \$1.35 each; 3 for \$3.50.

• Evergreen Wintercreepers •

Excellent plants for ground covers, edging, and if given some support they are the finest of the Evergreen climbing vines.

—**E. Carrieri**—Produces Bittersweet-like pods in late fall. The foliage remains green until very late in the Winter. Very often shaped as a low shrub along with the Evergreen foundation planting.

—**E. Colorata**—Best for ground cover, and for foundations, walls, terraces, etc.

—**E. Vegetus**—Slowest in growth, but hardiest of all.

Price, all Wintercreepers—Strong 2-yr. vines, 85c each; 3 for \$2.25.

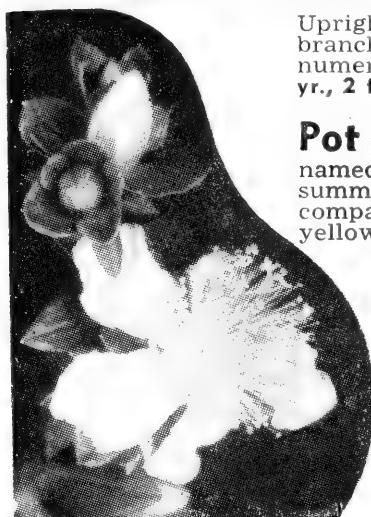

Rare Shrubs

• Aristocrats of the Garden •

Pink Korean Snowball (*Viburnum Carlesi.*) Sometimes called the Mayflower Viburnum as it resembles the Mayflower in fragrance and blossom. Blooms profusely in early spring and flowers are pink in color and heavy laden with spicy fragrance. Price, 18-24 in. Plants \$1.85 each; 3 for \$4.75. Heavy 2-3 ft. plants \$2.75 each.

Cotoneaster Apiculata Round graceful shrub to 4 feet—glossy green foliage studded with striking red berries. Truly an aristocrat of shrubs. Price, 2 yr. 12-15 inch plants \$1.25 each; 3 for \$3.00 with Moss Ball.

Cotoneaster Divaricata.

POT O' GOLD

Burning Bush

(*E. A. Compacta*) Fiery red foliage throughout the fall season. A compact specimen medium height shrub with glossy foliage which turns a brilliant red in Autumn. Price, 3 yr., 18 in. plants, \$1.50; 3 for \$3.75.

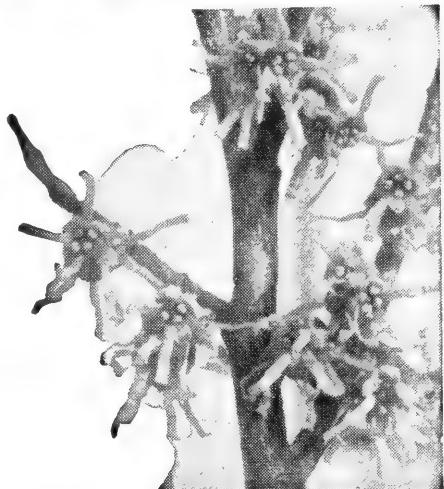

Upright to 6 ft.; foundation like branches with smaller but more numerous berries. Price, heavy 2 yr., 2 ft. plants, \$1.35 each.

Pot o' Gold (*Hypericum Kalmanianum*) Truly named, since throughout the summer months this low growing compact shrub is a ball of golden yellow flowers of distinctive beauty. As fast as one flower disappears a new one takes its place. Here is a perfectly hardy Hypericum and a specimen low shrub for full sunshine. Price, 3 yr. specimens, 18 inch bushy plants \$1.50; 3 for \$3.75.

Winter Flowering Witch Hazel

(*Hamamelis Vernalis*) A profusion of orange red or yellow blossom, sweetly fragrant, in January and February. This is an excellent new shrub, compact and symmetrical, attaining a height of 4 to 6 ft. Price, heavy 2 ft. plants \$1.25 each; 3 for \$3.25.

PINK KOREAN SNOWBALL

WINTER FLOWERING WITCH HAZEL

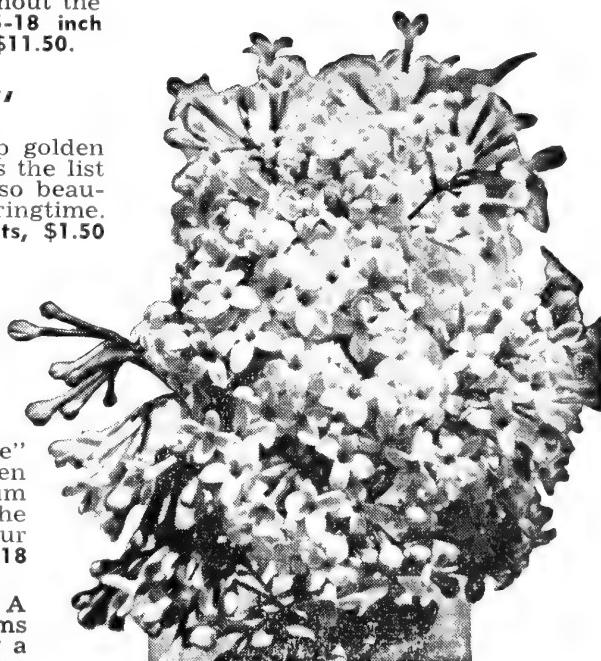

Red Leaved Japanese Maple

May be considered a shrub or small tree to about 8-10 feet. Blood-red foliage throughout the summer. Price, 3 yr. 15-18 inch plants, B&B, \$4.50; 3 for \$11.50.

"Lynwood Gold"

(Newest *Forsythia*) A deep golden yellow creation that tops the list of fine "Golden Bells"—so beautiful in very early springtime. Price, 2-3 ft. plants, \$1.50 each; 3 for \$3.95.

Everblooming Lilac

Golden Privet This is the true "Vicary type" with foliage of a glossy waxy texture and clear golden color. A compact medium height shrub to around 3 ft. Plant it for color among the Evergreens or as a specimen on either side of your entrance. Price, 2 yr. 12-15 inch plants \$1.10 each; 15-18 inch \$1.50 each.

Everblooming Lilac (*Syringa Microphylla*) A mass of lilac pink blossoms in early spring. It has the unique habit of blooming a second time in the autumn and often stray blossoms throughout the summer. Price, 2 yr., 2 ft. plants, \$1.25 each; 3 for \$3.00.

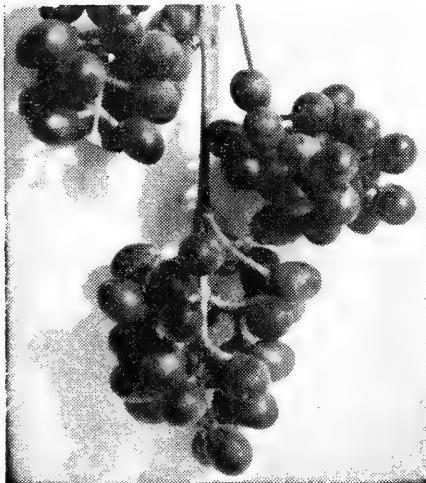

All Plants on this Page by Mail—Postpaid unless otherwise noted

Colorful Shrubs

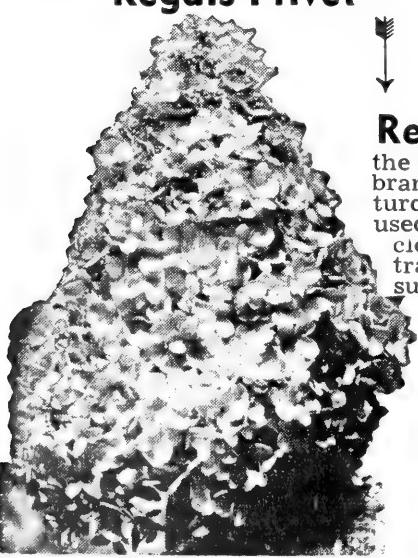

All shrubs on this page are strong 2- and 3-year field-grown plants suitable for Landscape Planting. Price (unless otherwise noted), \$1.00 each; 3 for \$2.75, Postpaid.

KOLKWITZIA
(Beauty Bush)

Regals Privet

Regals Privet The most desirable of all the Privets. Beautiful horizontal branching with white flowers and turquoise blue berries. Can be used as a hedge when planted close. Also makes a very attractive low shrub especially suited for ranch-type homes.

New Korean Barberry

An attractive shrub attaining a height of 6 ft. Yellow flowers in pendant clusters in Mid-May. Autumn foliage is Orange and Red.

Abelia Grandiflora Lovely, graceful low growing shrub with slender arching branches of very glossy leaves and delicate pink blossoms that are carried into the Winter.

Althea (Rose of Sharon) Showy flowers in August. Separate varieties available in Red and Pink.

Barberry Red Leaved Green Leaved
(See Page 21 for Hedge Sizes)

Beauty Bush (*Kolkwitzia Amabilis*) A beautiful shrub with masses of Pink Abelia-like blossoms.

Butterfly Bush Colors: Pink; Reddish Lavender and Purple.

Calycanthus Old fashioned sweet - scented shrub.

Deutzia Lemoine Df.

A low compact shrub. Pure white flowers in May. An excellent plant to use for low, ranch-type houses.

Flowering Almond This "Double" flowering Almond is from the old fashioned garden and still unsurpassed in its season. Among the first to bloom in the spring.

Forsythia Spectabilis

(Golden Bell) Arches of golden yellow blooms with the first warm days of spring.

Bush Honeysuckles

Most valuable tall growing shrubs in foliage, flowers and attractive fruit.

—**Zabelli:** (New) Landscape gardeners are recognizing "Zabelli Honeysuckle" as the most attractive of all Bush Honeysuckle varieties for its bright red blossoms and red berries.

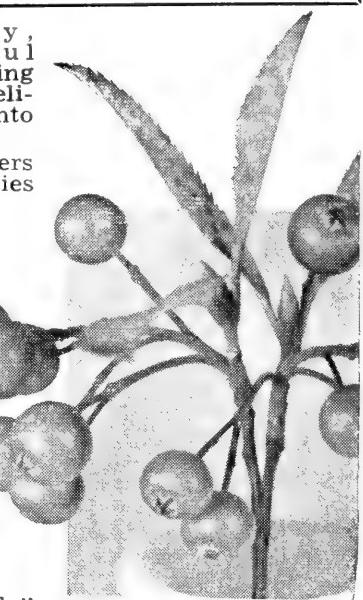

—**Morrowi:** Yellowish white flowers—and the heaviest berried of all the Bush Honeysuckles.

—**Fragrantissima:** Semi-evergreen. One of the best shrubs for foliage.

Hydrangeas

—**Pink.** (*Paniculata Gr.*) The large Pink Hydrangeas. May be trimmed in tree form.

—**White.** (*Arborescens*) Large white flowers and everblooming.

BRILLIANT RED ARONIA

A shrub for winter color

Large French Pussy Willows

—They come as a herald of Springtime.

NEW
KOREAN
BARBERRY

Colorful Shrubs

All shrubs on this page are strong 2- and 3-year field-grown plants suitable for Landscape planting. Price (unless otherwise noted)—\$1.00 each; 3 for \$2.75, Postpaid.

Beautiful French Lilacs Any description would fall short of the real beauty both in form and fragrance of these marvelous flowers. They are among the hardiest of all shrubs and very easily grown. The following select varieties are among the thriftiest and most profuse bloomers. **Casimer, Perier, Dbl. White—Chas. Joly, Dbl. Red—Marc Michell, Dbl. Lavendar—Katherine Havemeyer, Dbl. Pink.**

Price, all varieties, strong 2-3 ft. plants, \$1.75 each; 3 for \$4.50 by express.

Old Fashioned Lilacs

White or Purple. Unsurpassed in beauty and fragrance.

Snowberry
Effective
Winter and Summer

Syringa Virginialis

(Dbl. Mock Orange)

Large fragrant double white waxy, orange-like blossoms.

Red Jap Quince

"Fire Bush" as it is so often called because the shrub is a mass of fiery red blossoms before the leaves are out in early Spring. We have selected a fine upright strain. One of the best we have ever seen.

Rhodotypos

(White Kerria)—White blossoms, coffee-like glossy black berries and good foliage plant. Grows well in shade.

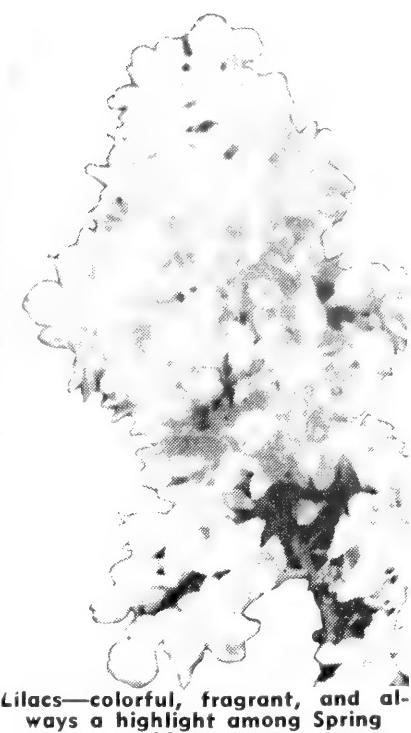

Smoke Bush (Rhus Cotinus.)

Is sometimes called Purple Fringe. Most noted for its very showy effect of being covered with a purplish film of smoke.

Tamarix "Summer Glo" A delightfully new Tamarix with feather-like foliage and airy pink blossoms in early summer.

Snowball Old Fashioned. The common Snowball is still an old-time favorite.

High Bush Cranberry The plant is a highly ornamental shrub in itself, attaining a height of about 8-10 feet with deep green foliage throughout the summer. Very decorative in fruit which hangs in clusters and remains on the branches, keeping its bright scarlet color until the following spring.

Lilacs—colorful, fragrant, and always a highlight among Spring blossoms.

LELAND'S FIRETHORN

Firethorn

(*Pyracantha Lelandii*)—An evergreen shrub with small dark green leaves, compact habit of growth, much branched. White flowers in spring followed by large clusters of bright orange scarlet berries. One of the most satisfactory shrubs to use. Must be planted in early spring or late fall. Price, 12-15 inch plants with Moss Ball \$1.35 each; 3 for \$3.75.

Weigelia

Spireas for All-Summer Color

—White Spirea (*Van Houttei*)

—Red Spirea (*Dwarf Anthony Waterer*)

—Bridal Wreath Spirea (*Double white blossoms*)

Blue Mist Spirea (*Caryopterus Incana*)

Here is a low growing shrub that provides a mass of blue mist like flowers throughout the late summer. Free bloomer. Price, \$1.00 each; 3 for \$2.75.

WEIGELIAS

Rosea —most dependable pink variety. Hardy, free blooming and an old time favorite.

Vaniceki A New Hardy Red Variety. The most widely planted new hardy shrub in America—Blooms Spring, Summer and Fall. In May-June each plant is covered from top to bottom with hundreds of the lovely rosy-red trumpet-shaped flowers.

Price, 2 and 3 yr. field grown plants, \$1.25 each.

Container Plants

Your Assurance of Growth
Without the Shock of Transplanting.

Plant Throughout
The Summer

All container grown plants are priced at the Nursery Center, depending on the size and variety of the plant. You will be pleasantly surprised how reasonable and how desirable they are. Planted in Scarff's **Special Soil Mixture** to give you a most vigorous growth.

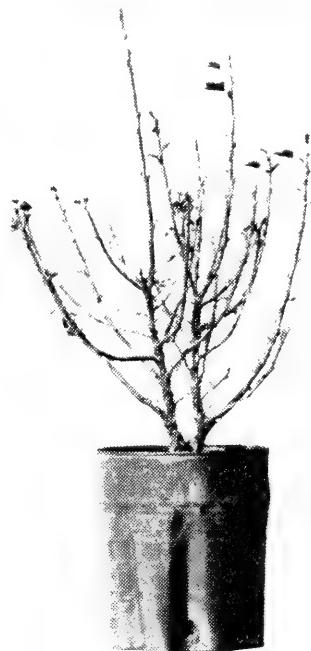

Viburnum Carlesi (Pink Korean Snowball) White Waxen Flowers—even before the leaves—add spicy fragrance to the garden in Spring time. We also have its sister variety V. Burkwoodi. Equally beautiful and with more glossy foliage.

Pink Korean Snowball

Cotoneaster Apiculata

(Cranberry Cotoneaster) Not illustrated but an aristocrat of shrubs. Low round shrub—glossy leaves—large Cranberry red berries.

Remember—These Potted Plants will not stop growing—When set out in your lawn or garden.

Alpine Currant

New and Beautiful True Vicary Golden Privet

A striking golden yellow specimen plant. Shear it and use with evergreens for contrast. A dwarf plant to 3 ft. and may be shaped round, conical or pyramidal. Vicary is truly a "Landscape Plant of Tomorrow."

Abelia Grandiflora

An old Southern favorite—hardy in our northern gardens. A low growing shrub most graceful with its arching branches, glossy deep green foliage and delicate pink flowers, adding color throughout late summer and fall.

Burning Bush

(*Euonymus Alatus Compacta*) Here is the shrub that is always so fiery red throughout October and November. Everyone wants it for their lawn as a specimen plant with its blazing fall color as well as general attractiveness throughout the summer.

Pot O'Gold

Pot O'Gold

(*Hypericum Kalmianum*)

We like this among the best of all Summer blooming shrubs. Low growing, roundish and compact. Use it along with your evergreens as a specimen foundation plant. Golden yellow flowers and bluish green foliage are most attractive throughout most of the year.

Orange Red Firethorn

Burning Bush

French Hydrangeas

(Not illustrated) New hardy varieties of this "finest of all shrubs" for their delicate shades of pink and blue. Almost continuous bloom throughout the summer and fall.

Macrophylla Rosea — New large flowering pink.

Nikko Blue — Most widely planted blue.

Perennials

You may plant them throughout the summer.

We expect to have potted a full list of the New Astilbe Fanal (red), Phlox, Day Lilies, Oriental Poppies, Chrysanthemums, etc. Remember Pot Plants will not wilt down or suffer any set back when you plant out of pots.

DON'T MISS

Seeing all these fine plants and hundred of others at our **New Nursery Center**—just completed. Every effort has been made to keep all Nursery Stock in perfect growing condition—by using New Green Plantainers, Semi Shaded Lath House—complete new irrigation system—new type sales benches for better root protection in our storage.

New Orange Red Firethorn

(*Runyan Selection*) One of the best fruiting plants for our northern states. Clusters of these orange red berries among deep glossy green foliage—semi-evergreen. Grow it naturalistic or shape it to globe or train it espalier.

Clump Birch

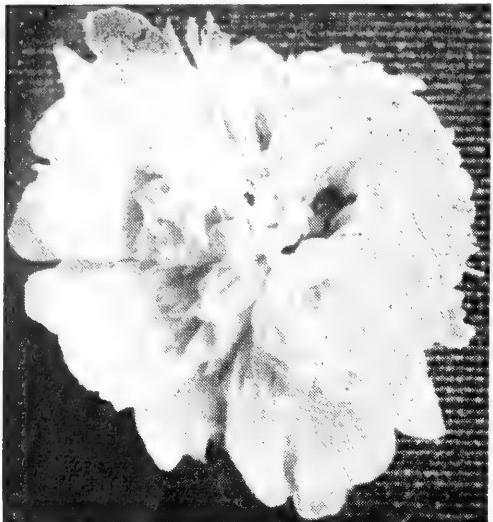

Three Trees—all planted in one pot—for perfect clump effect. They are true White Birch and will develop the striking white bark.

Drive over to our New Nursery Center for these Pot Plants—Cannot be shipped.
